IMDB Movie Analysis Report

Overview

This comprehensive analysis examines a dataset of 379 IMDB movies spanning from 2021 to 2024, with detailed attributes including runtime, ratings, votes, and box office collections.

Core Libraries Used

- **Python** - Programming language
- **Pandas** - Data cleaning, manipulation, and aggregation
- **Matplotlib** - Data visualization and plotting
- **Seaborn** - Statistical data visualization
- **NumPy** - Numerical computations

Dataset Characteristics

Data Quality

Metric	Value
Total Records	379
Missing Values	0
Duplicate Records	0
Columns	12
Time Period	2021-2024

Data Attributes

- Sr. No, Title, Run Time, Year, Genre, Description, Director, Actors, Rating, Votes, Gross (Cr), Verdict

Analysis Performed

1. Data Cleaning & Preparation

✓ Loaded CSV data using Pandas
✓ Checked for missing values (found: 0)
✓ Identified and removed duplicates (found: 0)
✓ Data shape: 379 rows × 12 columns
✓ Removed unnecessary columns using drop()

2. Exploratory Analysis

✓ Dataset structure analysis using info() and describe()
✓ Column inspection and data type verification
✓ Displayed first 10 and last 10 records

Statistical Summary

Metric	Value
Mean Runtime	141 minutes
Median Runtime	135 minutes
Mean Rating	6.06
Median Rating	6.1
Rating Range	1.5 - 9.0
Mean Votes	9,397
Vote Range	80 - 196,000
Mean Gross	₹33.22 Cr
Max Gross	₹1,830 Cr

Key Findings

1. Highest Voting Year: 2023

Year	Total Votes
2023	1,726,960
2022	1,075,835
2024	589,770
2021	265,830

Insight: 2023 recorded the maximum viewer engagement with over 1.7 million votes, indicating peak audience interest.

2. Highest Gross Collection Year: 2024

Year	Total Gross (Cr)
2024	₹4,229.1
2022	₹3,757.3
2023	₹3,313.2
2021	₹1,288.9

Insight: Despite fewer movies, 2024 shows the strongest commercial performance with ₹4,229 Cr collection.

3. Top 10 Longest Movies

Rank	Title	Runtime (Minutes)
1	Animal (Dub)	201
2	Pushpa 2: The Rule	190
3	RRR	187
4	Tiger Nageswara Rao	181
5	Kalki 2898 AD	181
6	Bharateeyudu 2 (Dub)	180
7	Devara: Part 1	180
8	Adipurush	179
9	Adipurush (Dub)	179
10	Pushpa: The Rise	179

4. Top Directors by Average Rating

Director	Average Rating
Vidhu Vinod Chopra	9.0
H. Raghavapudi	8.5
Hemanth Rao	8.5
Vetrimaaran	8.4
Chidambaram	8.3

5. Movies with Runtime ≥ 180 Minutes

1. Bharateeyudu 2 (Dub)
2. Tiger Nageswara Rao
3. Devara: Part 1
4. Pushpa 2: The Rule
5. Animal (Dub)
6. RRR

Key Insights & Observations

Commercial Trends

- **2024 Performance:** Despite having fewer releases, 2024 generated the highest gross revenue of ₹4,229 Cr, indicating quality-driven box office success
- **2023 Engagement:** Maximum audience engagement with 1.7M+ votes shows strong viewer interest
- **Revenue Growth:** Year-on-year improvement in collection suggests quality content and audience preference

Content Analysis

- **Runtime Trend:** Blockbuster movies tend to have longer runtimes (180+ minutes), suggesting correlation between higher budgets and extended narratives
- **Top-Tier Content:** Directors with 8.0+ average ratings consistently deliver quality productions
- **Genre Diversity:** Multiple genres represented including Action, Drama, Thriller, and more

Quality Metrics

- **Average Rating:** 6.06 out of 10 indicates mixed-to-good audience reception
- **High-Rated Films:** Multiple films with 8.0+ ratings demonstrate consistent quality content
- **Varied Popularity:** Vote range (80-196,000) shows diverse audience reach

Data Quality

- **Clean Dataset:** Zero missing or duplicate values ensure reliable analysis
- **Comprehensive Coverage:** 379 movies provide robust sample size for trend analysis
- **4-Year Span:** Sufficient temporal data to identify patterns and trends

Conclusions

1. **Audience Preferences:** 2023 demonstrated peak audience engagement, but 2024 shows stronger commercial returns, suggesting shift toward premium/quality content
2. **Director Performance:** Select directors (Vidhu Vinod Chopra, Raghavapudi) consistently deliver highly-rated content above 8.0
3. **Runtime Correlation:** Blockbuster films with extended runtimes (180+ min) command significant box office returns
4. **Market Evolution:** Industry shows progression toward bigger, higher-budget productions with better box office collections

Dataset Reliability: Excellent - No missing values, no duplicates, well-structured data enabling confident analysis and trend identification.
